C. Research Support. (Selected Ongoing and Completed Projects)

ONGOING

2 U01-DK48375-10
NIH / NIDDK

D. Nathan (PI)

9/01/02-1/30/08

Diabetes Prevention Program Outcomes Study

The goal of this multiyear, multi-center project is to determine the persistence/long-term effectiveness of the effects shown in the Diabetes Prevention Program in delaying the progression of impaired glucose tolerance to type II Diabetes Mellitus. The study will also examine the extent to which complications of diabetes (retinopathy, cardiovascular disease) are delayed. Role: Site Co-Principal Investigator

CO-05-TPale-02.

T. Palen (PI)

8/2005 – 12/2006

Kaiser Permanente Colorado Region

Using a Health Connect Alert to Decrease ordering of D-Dimer for DVT in Patients over 65 years of age. Goal: to examine and quantify the effect of decision support imbedded in an electronic medical record on appropriate test ordering for older patients with possible deep venous thrombosis. Role: Co-investigator

GENP9264.

D. Price (PI)

7/2006-6/2008

Neurontin Settlement Prescriber and Consumer Education Subaccount Grants Program.

Pharmaceuticals from Development to Practice: A Web-Based Educational Curriculum for Health Professionals.

Goal: to develop and evaluate a series of tools for devising, implementing, and evaluating a two-stage, internet-based program covering selected aspects of pharmaceutical development, approval, and marketing; accessing and appraising drug information; and utilizing pharmaceuticals cost-effectively. Role: Principal Investigator

CO-06-DPric-03

D. Price (PI)

12/2006 – 11/2007

Kaiser Permanente Colorado Region

Depression Care Management (DCM) for Connections Charitable Health Coverage Program Participants.

Goal: to implement and modify a telephone and in-person nurse care management program to improve follow-up and outcomes of patients in Kaiser Permanente Colorado's Charitable care program diagnosed with depression. Role: Principal Investigator.

COMPLETED

CO-03DPrice-01

Price (PI)

11/01/03-1/31/05

KAISER PERMANENTE COLORADO REGION

Effect of Breast Care Continuing Medical Education Programs on General Surgery Referrals and Primary Care Office Breast Biopsies

Goal: to examine the effect of a series of continuing medical education programs on breast disease in women on performance of procedures (in office breast cyst aspirations) and general surgery referrals for breast complaints. Role: PI

101-9716

Price (PI)

12/01/01-8/01/04

Garfield Memorial Fund

Screening and Treatment of Depression and Anxiety in Patients with Congestive Heart Failure

Goal: to compare outcomes for depressed or anxious heart failure patients enrolled in a phone-based follow-up program compared to usual care. Role: PI

P0346sc

Price (PI)

1/01/01-12/31/01

Contemporary Education Initiative
(The Network, UCSF)

A Curriculum for Shared Decision Making in Adult Primary Care and OB/GYN Practices

Goal: to develop, implement, and evaluate a curriculum incorporating evidence-based medicine into patient-clinician communications surrounding the diagnosis and treatment of patients regarding depression, hormone replacement therapy, mammography for women in their 40s, and prostate cancer screening. Role: PI
